## CLIMATE CONTROL

Ensuring your co conservatory has adequate ventilation is a necessity when creating a room for all seasons. There are various options available to suit your needs and your budget.

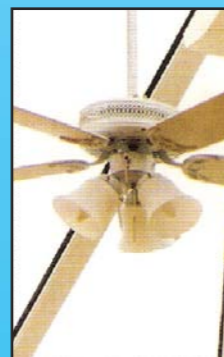

### Roof Windows

Manual, electric or automatic ventilation solutions provide climate control and a room that can be used all year round.

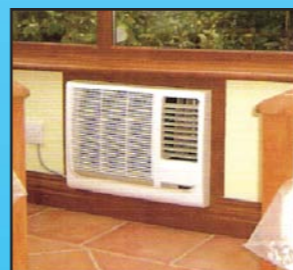

### Roof Fans

Roof fans promote the circulation of air in a conservatory. They can either be set to provide downward airflow and a cooling effect in winter or upward air flow to circulate warm air in winter.

### Air Conditioning

The Climate Control System is an effective and cost saving way to provide heating and cooling to a room the householder will wish to utilise all year round. 16,000 btu's of heating and cooling and full remote control function.

All items subject to availability. Pictures are for illustration purposes only. All rights reserved.

Every effort has been made to ensure that the details in this brochure are correct but errors & omissions cannot be discounted.

# O&O CONSERVATORIES

## STYLES

### Apex

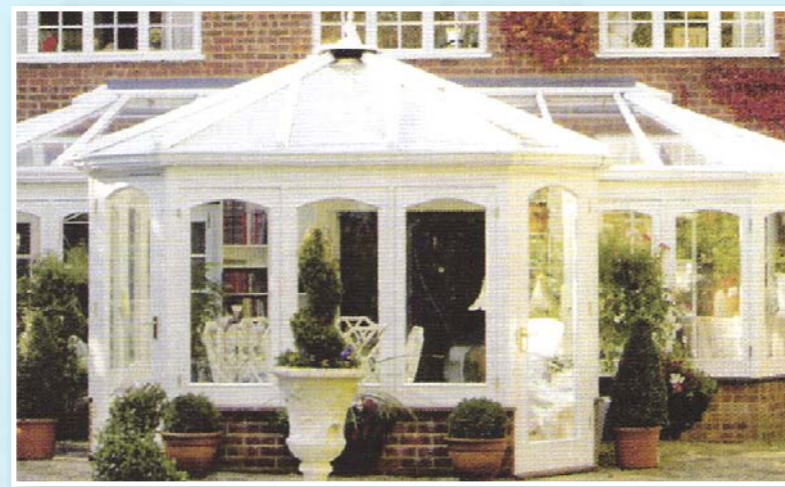

This Regency design has a gable front - for an eye-catching space which really blurs the line between your home and your garden.

## COMBINATIONS

### The Combination

Let your imagination run free - create the conservatory that suits your individual tastes and needs.

### The P-Shape

Simply combine the benefits of two styles to create your own living environment as individual as you are.

# O&O CONSERVATORIES

## STYLES

### Lean-To

This economic design offers practical extra space and the lowest cost solution when choosing a conservatory.

Creating extra living space for your home will never be more affordable.

### Victorian

Classic, airy and versatile. This traditional design works brilliantly - no matter how you want to use your space. Choose three facets, or a more rounded front with five facets.

### Edwardian

If you want as much light and useable space as possible, this clean and simple design makes perfect sense.
